

TEMPUR NECK PILLOWS

DESCRIPTION:

The Tempur pillow (sometimes known as Memory Foam) was developed together with physiotherapists to ensure that it moulds perfectly to the exact contours of your neck and head, giving excellent support and relief to the neck and shoulder muscles.

The pillow is recommended for those who desire not only a better night's sleep but also need a more therapeutic sleep posture. The design supports the curve created by your head, neck and shoulders to properly align your spine and give you a perfect night's sleep.

The soft, velour cover is resistant to allergens and mites and is removable for washing.

Currently Posture Plus has 4 different types of pillows available for short term loan so that you can "try before you buy". The Original (medium and large sizes) and the 3D Millenium (Queen medium and large sizes) - see the photos below. At Posture Plus a physiotherapist will assess which of the pillows suits you best, taking into account your neck alignment and your sleeping position preference. A deposit is required before borrowing the pillow for one week.

Please contact reception@posture-plus.com to ensure that all the pillows are available for you to test and that a Physiotherapist is available to assess which pillow is best for you.
